The Experts for Children  
with Special Needs ~

September 29, 2008

Charley Williams  
GEC – Geotechnical  
& Environmental Consultants, Inc.  
1230 Hillcrest Street  
Orlando, FL 32803

Dear Mr. Williams,

Thank you for being part of UCP of Central Florida's exciting new East Orange/Bailes Campus. Because of you, over 180 boys and girls waiting for services will receive UCP's highly successful support, education, and therapy. Over 70% of our "graduates" went on to attend a regular kindergarten classroom last year. That's the best possible news for these children, their families, and our community.

We greatly appreciate your investment of geotechnical and environmental services to UCP's **East Orange/Bailes Campus Capital Campaign**. You placed an estimated value of \$2,300 on this donation.

The new East Orange/Bailes Campus makes our dream come true to expand services through the third grade and to create a school where children with and

without special needs learn and grow together. This Campus's close proximity to the University of Central Florida has resulted in a synergistic partnership with the university to develop the new program, provide interns from multiple departments, and collaborate on many levels. Additionally, the Bailes Campus will be a national model of best and effective practices for inclusive education and therapy treatment options for children with disabilities—developing and testing cutting-edge, proven, and promising practices through research and application.

You can look forward to hearing from me as this project progresses, and I will contact you for the ground-breaking ceremony as well as other events scheduled to celebrate UCP's new East Orange/Bailes Campus. Thank you for your support and confidence in UCP's important work.

Sincerely,

Ilene E. Wilkins  
President/CEO
